

D9mm LampLED 1pcs white

AC 12V

FEATURE

NO harmful UV radiation
 Substantial energy saving
 AC12V input voltage
 LED Beam angle at 60 ± 20 degree
 Decorative architectural accent lighting
 Available in a selection of LED light colors

SPECIFICATION

Parameter	Symbol	Conditions	Min	Typ	Max	Unit
LED Type				Super Flux LED		
Emitting Color				White		
LED per Module	Board			1		pcs
Operating Voltage	Vop	AC		12		V
Frequency	f _r			50		Hz
Operating Current	I	AC12V		20		mA
Power Watts	Po	AC12V		0.2		W
Luminous Flux	v	AC12V		1.8		Lm
Operating Temp.	T		-5		45	°C
Net Weight	Wg			0.7		g

In addition to the reliability assurance level check mentioned above. We also perform reliability test to identify the design limit and destructive failure modes and to predict the field reliability of products.
